blue[®]m for clear aligners

*The best way to keep them
clean & fresh*

The smell is not the biggest problem of an aligner you wear daily, the bacteria on your aligner can spread further into your body. That is why blue[®]m has developed a special foam to clean clear aligners. blue[®]m oral foam is the ultimate cleaning product, according to many orthodontists. Not only for a clean aligner and a fresh feeling, it also brightens your teeth and cares for your gums.

How to easily keep your aligner clean

blue[®]m oral foam is very easy to use and has a triple action. It cleans your aligner, conditions gums and brightens your teeth. **Simply spray the foam into the aligner, put it back in your mouth and spit out any excess foam.** No need to rinse afterward. Thorough, easy and simple. A piece of cake! For heavy stains, leave the foam to soak in for a while and then brush with a soft brush.

About the aligner cleaner
